Ionic Magnesium

IONICMAGNESIUM.COM has been a viable on line web site for over 11 years. The products sold are marketed through Freedom Plus Corporation established in 1998. Our products are solely manufactured by MMI Labs with the goal of "Bringing You Comfort Through Better Health". "Your Business is our Blessing" and we much appreciate the support of all the customers and friendships we have developed over the years.

All of the products purchased through IONICMAGNESIUM.COM have a money back guarantee of thirty days regardless of the reason for the return upon a requested authorization given by the sales department.

All products are the exclusive formulas of MMI Laboratories and were developed by Dr. R. Gunderson, Phd, NDCC, DD. Dr. Gunderson spent many years in the Pharmaceutical Industry for a period of time working with Doctors doing AIDS research and began to come to an understanding that there might be a better alternative to a healthy body. This lead him to study Natural Healing practices obtaining two degrees in Natural health. With his training in this arena he began the process of developing minerals available in liquid form. With much research and formula development the current list of mineral supplements was obtained.

Welcome to IonicMagnesium.com

Magnesium is one of the most important elements for the human body, and many of us simply do not get enough of it. Deficiency of magnesium can cause all sorts of ails, so it's important to make sure that you are getting enough. Ionic Magnesium is a dietary supplement that helps you regulate your levels of magnesium.

These levels can be affected by many different factors. Antacid and anti-inflammatory medications, as well as diuretics, antibiotics, and birth control can deplete normal magnesium levels. As many of us need these medications, a product like Ionic Magnesium helps give us the supplemental minerals that play a critical part in overall health.

Important Cautions

The information presented on this web site is not offered as medical advice. The success stories we share were written by people who use our products and wish to share their experience with others. One must exercise caution in evaluating them and it is important to realize that these experiences are not the equivalent of scientific studies. (When evaluating scientific studies one of course must also exercise caution.) These shared success stories are not to suggest that you will have the same experiences as their authors, but because we feel you have a right to make your own evaluation and determination if perhaps these product could work for you.
Government Agencies would rather have these success stories withheld from the public because, allegedly, they constitute "unapproved medical claims."

As we stated previously the only claims we make are that these success stories are authentic and that the people who shared them are real. Truth is not truth unless it is the "complete" truth, and these success stories are just as much a part of the truth as the statistics of scientific studies. Free persons are entitled to have access to "all" the information available so they can make an informed and intelligent choice relating to their own health. Thus, we are sharing these success stories as the exercise of our right to freedom-of-speech and your right to freedom-of-information as given per authority of F.O.I.A.

Our products are intended solely as supplements to enhance general health and to reinforce the body's own defense against disease. Please be informed that we are not qualified nor do we attempt to diagnose, treat, cure, or prevent any disease. You should not construe anything in this web site to be medical advise regarding any specific disorder. Those in poor health or on medication should consult with a physician before using these products.

Liquid Ionic Magnesium
